Concerning Question 4. I am not opposed to tax incentives to attract new business IF they create a situation which is beneficial to the citizens on North Carolina. I would not be in favor of any such incentive that could not clearly be shown to be a net gain to the population in general.

Concerning Question 13. Actually, it is unavoidable and the voters should pay attention to what those beliefs are.

Concerning Question 14. In states like California, approval of "medical marijuana" was merely a way to dodge the law. Anyone who wanted to use marijuana for recreational purposes could get a "prescription." It was also just a first step in legalizing the use of marijuana. The elements that are of medical value are already available.
