1. Parents should undoubtedly make the best decisions concerning their child's education. However, available quality educational programs should not be limited to just public or private entities, but ^{towards} any parent wanting advanced or specialized education for their children.
3. Given ^{strict and} that non-digital lottery is allowed, with careful oversight, I believe it is feasible to allow a similar "digital instant." As with any lottery type program, I believe it's necessary to limit access if abuse, misuse is found.
7. All organizations including our local hospitals are not extreme abortion clinics that if warranted perform abortion procedures based upon the circumstantial condition of the woman. Therefore creating ~~the~~ laws that don't give practical application to realistic conditions, binds citizens from such as life or death ^{making important} decisions for their family.
14. ~~13.~~ Having signed a low-THC medical cannabis bill, HB 1220, into law on July 3, 2024 - given the need to ^{safety} regulate this industry - I'm not sure if more allowance benefits the safety precautions needed.
